

**City of Kingston
Report to Committee of Adjustment
Report Number COA-24-062**

To: Chair and Members of the Committee of Adjustment
From: Chris Wicke, Senior Planner
Date of Meeting: July 15, 2024
Application for: Minor Variance
File Number: D13-044-2024
Address: 26 Maitland Street
District: District 10 – Sydenham
Owner: Anne Mathers and James Mathers
Applicant: Fotenn Planning + Design

Council Strategic Plan Alignment:

Theme: Regulatory & compliance

Goal: See above

Executive Summary:

This report provides a recommendation to the Committee of Adjustment regarding an application for minor variances for the property located at 26 Maitland Street. The applicants are proposing to permit the construction of a small accessory structure to replace a garbage enclosure which is currently located front yard of the semi-detached house.

The requested minor variances are consistent with the general intent and purpose of both the City of Kingston Official Plan and Kingston Zoning By-Law Number 2022-62. The requested minor variances are desirable for the appropriate development or use of the land, building or structure and are minor in nature. As such, the proposed application meets all four tests under Subsection 45(1) of the *Planning Act* and is recommended for approval.

July 15, 2024

Page 2 of 11

Recommendation:

That minor variance application, File Number D13-044-2024, for the property located at 26 Maitland Street to permit an accessory structure in the front yard of the semi-detached house, be approved, as described below:

Variance Number 1:

By-Law Number 2022-62: 4.1.2.1 – Additional Accessory Provisions for Residential Uses and Buildings

Requirement: The accessory building must be located in a rear yard, exterior yard or interior yard

Proposed: Front yard

Variance Requested: Front yard;

Variance Number 2:

By-Law Number 2022-62: 4.1.2.4 – Additional Accessory Provisions for Residential Uses and Buildings

Requirement: The accessory building may encroach into the required setback on a lot provided that such accessory building must be setback a minimum of 1.2 metres from all lot lines;

Proposed: 0 metre setback from the side lot line

Variance Requested: 1.2 metres; and

That approval of the application be subject to the conditions attached as Exhibit A (Recommended Conditions) to Report Number COA-24-062.

Options/Discussion:

On May 27, 2024, a minor variance application was submitted by Fotenn Planning + Design, on behalf of the owners, Anne Mathers and James Mathers, with respect to the property located at 26 Maitland Street. The variance is requested to permit an accessory structure in the front yard of the semi-detached house. The owners have constructed a small garbage enclosure on the property without prior heritage or planning approvals. As the accessory structure is a storage enclosure less than 15 square metres, no building permit is required for its construction, though it is still required to be compliant with the applicable zoning and is subject to heritage approval. Due to the positioning of the semi-detached dwelling towards the rear of the property, the rear yard is very limited in depth and there is one narrow side yard. The request for relief is being made to permit an accessory structure for garbage and recycling storage, which is not currently possible given the building placement and lot configuration.

In support of the application, the applicant has submitted the following:

- Plot Plan (Exhibit F)
- Landscape Plan (Exhibit G)
- Planning Report
- Minor Variance Addendum
- Survey

All submission materials are available online through the Development and Services Hub (DASH) at the following link, [DASH](#), using “Look-up a Specific Address”. If there are multiple addresses, search one address at a time, or submission materials may also be found by searching the file number.

Site Characteristics

The subject property is located on the west side of Maitland Street, south of King Street East, east of Emily Street, and west of Simcoe Street (Exhibit B – Key Map). The principal dwelling at 26 Maitland abuts the structure on the adjacent property to the north and has a narrow side yard to the south. The lot is of an irregular shape, with the house placed to the back of the property resulting in a long yet narrow front yard in front of the dwelling that increases in size slightly near the entrance to the home, with a narrow side yard approximately 3 metres in width, and a limited rear yard with a depth of less than 2 metres. There is an existing garbage enclosure in the front yard of the home (Exhibit C – Neighbourhood Context Map).

The current shed is plastic and is approximately 1.8 metres tall, 1.5 metres wide, 0.8 metres deep and less than 2 square metres in area. The owners would like to replace it with a structure of a similar size that is higher-quality and more durable structure that is more contextually appropriate given the heritage designation of the home and surrounding properties. The applicant is proposing that the structure will be constructed of the same materials as the enclosure and shed at 28 Maitland Street, including fibre cement board siding, painted in the same sage green colour as the enclosures, with a standing seam metal roof matching the

July 15, 2024

Page 5 of 11

principal semi-detached homes at 26 and 28 Maitland Street. As part of the Old Sydenham Heritage Conservation District, the subject property is heritage designated and is also surrounded by Part V heritage designated properties.

The subject property is designated Residential in the Official Plan (Exhibit D – Official Plan Map) and zoned Heritage Zone 3 – Old Sydenham (HCD3) in Kingston Zoning By-Law Number 2022-62 (Exhibit E – Zoning By-Law Map).

Provincial Policy Statement

In addition to the four tests of a minor variance detailed below, Subsection 3(5) of the *Planning Act* requires that a decision in respect of the exercise of any authority that affects a planning matter shall be consistent with the Provincial Policy Statement (the PPS). The PPS provides policy direction on matters of provincial interest related to land use planning and development which are complemented by local policies addressing local interests. The application being considered is site specific to accommodate a specific proposal and does not involve any major policy considerations and as such, the proposal conforms to and is consistent with the PPS.

Minor Variance Application

The review of an application for minor variance(s) is not a simple mathematical calculation, but rather a detailed assessment of whether the variance(s) requested, both separately and together, meet the four tests of a minor variance outlined in Subsection 45(1) of the *Planning Act*. The following provides this review:

The general intent and purpose of the Official Plan are maintained

The subject property is designated Residential on Schedule 3A – Land Use of the City of Kingston Official Plan (Exhibit D – Official Plan Map). In considering whether this proposed variance is desirable, the Committee of Adjustment will have regard to the nine requirements included in Section 9.5.19 of the Official Plan.

The subject property is located within a Housing District on Schedule 2 – City Structure of the Official Plan. This proposal does not seek a significant change that would impact the surrounding properties or neighbourhood characteristics. The proposal to permit a small accessory structure in the front yard of the home is compatible with the surrounding area. The modification is not anticipated to have any negative impacts on the neighbourhood. Due to the configuration of the building on the lot, the change is proposed in the front yard of the property but is set back approximately 20 metres from the lot line where there will be no visual impact on the streetscape. No change to the primary use of the property is proposed as a result of the minor variance, and no expansion of the existing building footprint is proposed.

This proposal to permit an accessory structure in the front yard meets all compatibility criteria and will not result in any negative off-site impacts to abutting properties. Prior to the renovations to the principal dwelling, there was a larger garbage enclosure located in a similar position, but it was removed. As the accessory structure is proposed to be used as a garbage enclosure, its

July 15, 2024

Page 6 of 11

use will be frequent but brief. It is positioned in the yard such that it will not be easily viewable from the adjacent home at 16 Maitland Street or from the accessory structure at the rear of the adjacent property at 53 King Street East. There is no threat of loss of privacy due to intrusive overlook as the shed is too small to be used for any type of habitable space. Increased levels of light pollution, noise, or odour are not anticipated. Adverse effects due to shadowing are also not anticipated as the shed is less than 2 metres in height and located on the southern property line, thereby casting shadows only onto the subject property. No significant shadows will be created by the garbage enclosure. Due to the courtyard form of the yard created by the surrounding buildings, the landscaping along the front lot line, and the distance from the public right of way, there is limited visibility from the street and surrounding area to the area of the front yard affected, and no adverse impacts to the streetscape along Maitland Street are anticipated. No additional exterior changes are proposed to 26 Maitland as a result of this application. Further mitigation measures are not required.

The proposal has been reviewed from an urban design perspective and with consideration for applicable urban design policies endorsed by Council. There are no concerns from a design perspective with the proposal.

The property is designated under Part V of the *Ontario Heritage Act*, and it is part of the Old Sydenham Heritage Conservation District (HCD) through By-Law Number 2015-67. It is located adjacent to similarly designated properties. The proposed garbage enclosure was granted delegated approval by Heritage Services ([File Number P18-027-2024DA](#)). The work on the adjacent property at 28 Maitland Street was subject to a heritage permit (P18-1010) which was approved on April 17, 2024 (Report Number HP-24-021). That report also gave consideration to the property at 26 Maitland Street. Consideration was given to how the property plays a role in the Old Sydenham Heritage Conservation District. The Old Sydenham Heritage Area HCD Plan Property Inventory Evaluation identifies the property (including both 26 and 28 Maitland Street) as 'contributing' to the Old Sydenham HCD by way of its low massing, mansard roof, rectangular openings and its 2-tiered façade. While 26 Maitland Street is not rated as a "significant" building by the Old Sydenham HCD Property Inventory Evaluation, it is still considered a "contributing" building to the heritage character of the HCD and thereby considered a "heritage building" for the purposes of the District Plan's policies and guidelines. The new structure is located in the front yard, which conflicts with the HCD Plan's guidelines for new additions to heritage buildings. However, Maitland Street is somewhat unusual in design as it evolved more organically than most in the District, and it was not strictly planned as a residential streetscape.

The property is within an area cleared of archaeological potential; an archaeological assessment is not required. The property uses municipal water and sewage services. As this application proposes to permit an accessory structure with no new services and an existing dwelling, no additional service usage is expected.

The cumulative impact of the variance requested for this proposal does not warrant a zoning by-law amendment. The Committee of Adjustment may require additional conditions as it deems appropriate to the approval of the application. Recommended conditions are listed in "Exhibit A

July 15, 2024

Page 7 of 11

– Recommended Conditions”, attached to this report. Conditions may be added, altered, or removed at the Committee’s discretion.

The proposal meets the intent of the Official Plan, as the accessory structure in the front yard and with a reduced setback to the lot lines will not result in any negative impacts to adjacent properties or to the neighbourhood. The approval of the requested variance will not set an undesirable precedent for the immediate area, as it provides consideration for the existing configuration of the subject property and will apply only to the proposal to permit an accessory structure in the front yard of the existing home.

The general intent and purpose of the Zoning By-Law are maintained

The subject property is zoned Heritage Zone 3 – Old Sydenham (HCD3) in Kingston Zoning By-Law Number 2022-62 (Exhibit E – Zoning By-Law Map). The HCD3 zone permits a range of residential uses including semi-detached houses.

The proposal requires variance to Section 4.1.2 regarding locating an accessory structure in the front yard and the setback of the structure from a lot line:

Variance Number 1:

By-Law Number 2022-62: 4.1.2.1 – Additional Accessory Provisions for Residential Uses and Buildings

- Requirement: The accessory building must be located in a rear yard, exterior yard or interior yard
- Proposed: Front yard
- Variance Requested: Front yard;

Variance Number 2:

By-Law Number 2022-62: 4.1.2.4 – Additional Accessory Provisions for Residential Uses and Buildings

- Requirement: The accessory building may encroach into the required setback on a lot provided that such accessory building must be setback a minimum of 1.2 metres from all lot lines;
- Proposed: 0 metre setback from the side lot line
- Variance Requested: 1.2 metres

No relief is required to the provisions of the HCD3 zone for the principal structure and there are no proposed changes to the principal dwelling.

The variances requested maintain the general purpose and intent of the applicable provisions of the by-law which is to locate accessory structures in areas where they are functional but not prominently located. Due to the positioning of the principal semi-detached house towards the rear of the site, 26 Maitland has a single narrow side yard and the rear yard is minimized. The front yard presents the only realistic option for an accessory structure. It is to be located with no setback to the lot line, which at this point due to its irregular shape is set back approximately 20

July 15, 2024

Page 8 of 11

metres from the right of way, as it maximizes the path of travel and amenity space in the rear yard and will have no adverse impact on the adjacent property.

The proposed variance maintains the intent of the accessory structure provisions of the Zoning By-Law, as it will permit a structure that has been carefully designed to be compatible with the heritage landscape and that will be sympathetic to the heritage character of the property and the Heritage Conservation District, while allowing for a functional structure that will provide a garbage enclosure as well as creating an improved amenity space for the occupants.

The proposed design of the shed has been deemed compatible with the heritage characteristics of the HCD and had been granted heritage approval.

The requested variance maintains the general intent and purpose of the zoning by-law.

The variance is minor in nature

The requested variance to permit an accessory structure in the front yard is considered minor as it has small footprint of less than 2 square metres, it will be limited to the site, and there is limited in the potential for any impacts. The structure is compatible with the principal dwelling, the surrounding properties and the existing neighbourhood, and it will support the residential use of the property. The proposal has received a heritage permit and is not anticipated to result in any adverse effects to the surrounding Heritage Conservation District.

The shed complies with all other applicable zone provisions, including lot coverage, and maximum height. The proposal will not change the fundamental design characteristics of the neighbourhood. No impact on the surrounding land uses is anticipated.

The variance is considered minor in nature.

The variance is desirable for the appropriate development or use of the land, building or structure

The requested variance is desirable and appropriate use of the land as the scale and design of the structure is appropriate for the dwelling size, and the structure is planned to be carefully detailed to be compatible with the heritage characteristics of the home and surrounding properties within the Old Sydenham Heritage Conservation District.

As there a narrow side yard that is landscaped and serves as the only outdoor amenity space and a limited rear yard for the property, the best option placement of the garbage enclosure is in the front yard, while still set back considerably from the front property line. It has been positioned such that it does not obstruct the windows of the neighbouring accessory structure, and in addition to its function as a garbage enclosure, it also creates an improved amenity space for the residents, providing greater privacy for the amenity area near the home while retaining the parking spaces closer to the street. No relief is required for the proposed height or lot coverage. No adverse impacts are expected. The accessory structure will continue to support the residential use on the site without impact.

July 15, 2024

Page 9 of 11

The variance is desirable and appropriate use of the land.

Technical Comments

This application was circulated to external agencies and internal departments for their review and comment and there were no comments or concerns raised that would preclude this application from moving forward. Any technical comments that are received after the publishing of this report will be included as an addendum to the Committee of Adjustment Agenda.

Public Comments

At the time this report was finalized, no public comments have been received. Any public comments received after the publishing of this report will be included as an addendum to the Committee of Adjustment Agenda.

Previous or Concurrent Applications

There are no concurrent or relevant historic planning applications on the subject property. There is a minor variance application also being considered for the adjacent property at 28 Maitland Street (D13-045-2024) for similar zoning relief for an accessory structure – an existing shed and garbage enclosure that is proposed in the front yard.

Conclusion

The requested variances maintain the general intent and purpose of both the City of Kingston Official Plan and Kingston Zoning By-Law Number 2022-62. The proposal is desirable for the appropriate development or use of the land, building or structure and the requested variances

July 15, 2024

Page 10 of 11

are minor in nature. As such, the proposed application meets all four tests under Subsection 45(1) of the *Planning Act* and the application is being recommended for approval, subject to the proposed conditions.

Approval of this application will permit the construction of an accessory structure in the front yard of the semi-detached house.

Existing Policy/By-Law:

The proposed application was reviewed against the policies of the Province of Ontario and City of Kingston to ensure that the changes would be consistent with the Province's and the City's vision of development. The following documents were assessed:

Provincial

Provincial Policy Statement, 2020

Municipal

City of Kingston Official Plan

Kingston Zoning By-Law Number 2022-62

Notice Provisions:

A Committee of Adjustment Meeting is going to be held respecting this application on July 15, 2024 Pursuant to the requirements of the *Planning Act*, a notice of Statutory Public Meeting was provided by advertisement in the form of signs posted on the subject site 10 days in advance of the meeting. In addition, notices were sent by mail to a total number of 31 property owners (according to the latest Assessment Roll) within 60 metres of the subject property and a courtesy notice was placed in The Kingston Whig-Standard (Exhibit H – Public Notification Map).

Once a decision has been rendered by the Committee of Adjustment, a Notice of Decision will be circulated in accordance with the provisions of the *Planning Act*.

Recommended Conditions

The approval of minor variance application, File Number D13-044-2024, to construct an accessory structure in the front yard of the semi-detached house, shall be subject to the following recommended conditions:

1. Limitation

That the approved minor variance applies only to the accessory structure in the front yard at 26 Maitland Street as shown on the drawings attached to the notice of decision.

2. No Adverse Impacts

The owner/applicant shall demonstrate to the satisfaction of the City that there are no adverse impacts on neighbouring properties as a result of any modifications to on-site grading or drainage.

3. Standard Archaeological Condition

In the event that deeply buried or previously undiscovered archaeological deposits are discovered in the course of development or site alteration, all work must immediately cease and the site must be secured. The Archaeology Program Unit of the Ministry of Citizenship and Multiculturalism (archaeology@ontario.ca) and City of Kingston's Planning Services (613-546-4291, extension 3180) must be immediately contacted.

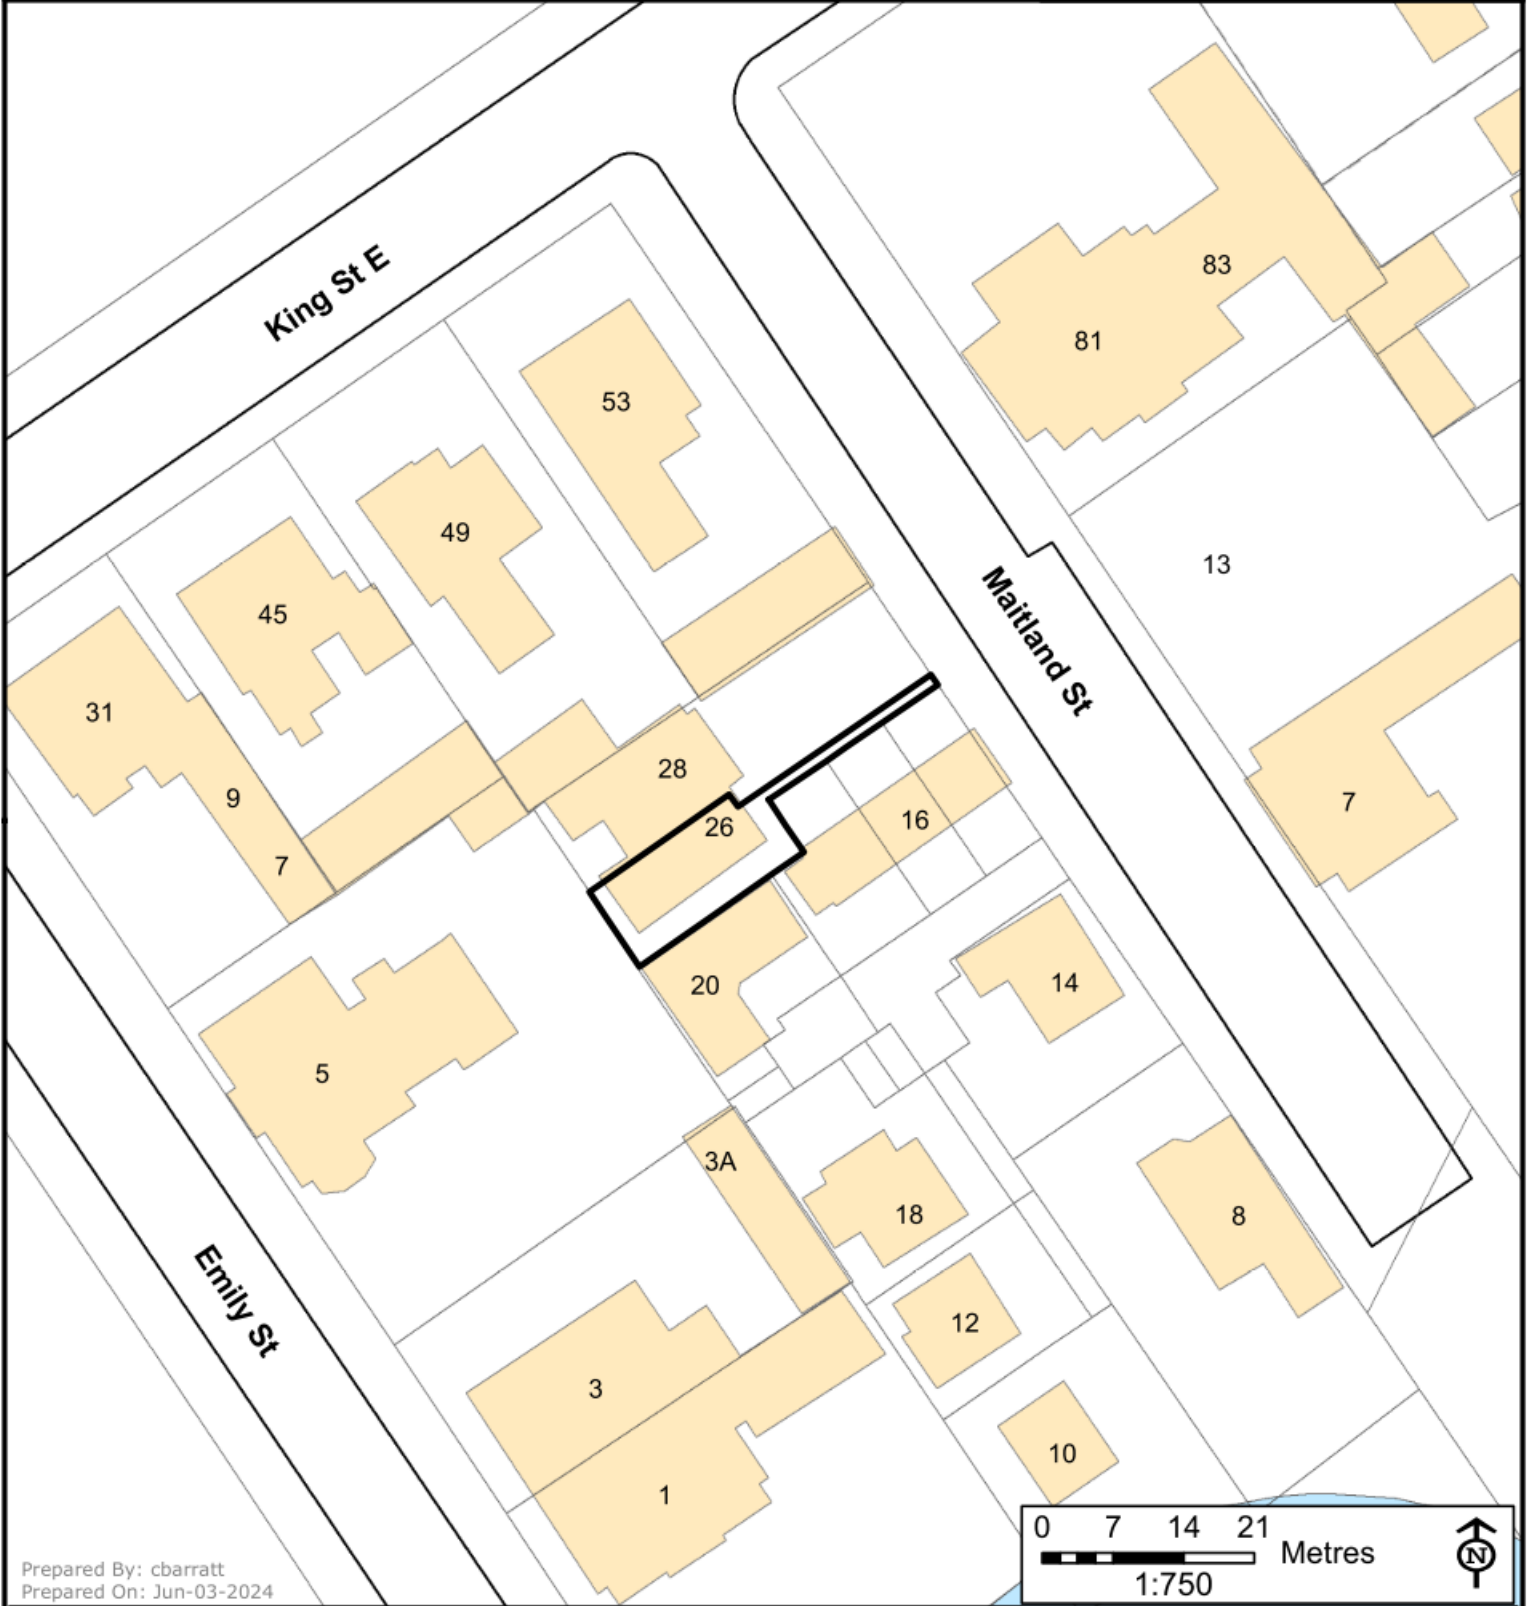

In the event that human remains are encountered, all work must immediately cease and the site must be secured. The Kingston Police (613-549-4660), the Office of the Chief Coroner as a part of the Ontario Ministry of the Solicitor General (1-877-991-9959), the Archaeology Program Unit of the Ministry of Citizenship and Multiculturalism (archaeology@ontario.ca), and City of Kingston's Planning Services (613-546-4291, extension 3180) must be immediately contacted.
